REPORT ON CONTINUE NURSING EDUCATION

27 FEBRUARY 2026

TOPIC: INTERNATIONAL HEALTH REGULATION: PUBLIC HEALTH MEASURES.

Report of the continuing nursing education (CNE) programme conducted on the topic "International health regulations(IHR): public health measures". The programme was organized with the objective of enhancing knowledge and awareness among nursing professionals regarding international health regulations (2005) and their importance in strengthening global and national public health system. The session also emphasized the role of nurses in disease surveillance, infection prevention and control, emergency preparedness, and implementation of public health measures during outbreaks and pandemics.

The CNE programme covered the objectives of IHR, core capacities required at national level, reporting mechanism, and public health interventions such as quarantine, isolation, vaccination, and risk communication. The programme was informative and beneficial for improving professional competence and preparedness in handling public health emergencies

Programme schedule: 8:30 am to 9:30am: Registration &Refreshment

9:30 am to 10:00 am: Inauguration & Pre –Test
